

July 2021

Save the Date Give for Good: Sept 17

One of the most important non-profit days of the year is fast approaching. Thank you all for your continued support of Doctors for Healthy Communities. Mark your calendars for the 2021 [Give for Good Louisville](#) event taking place Saturday, September 17th.

This is a wonderful opportunity to support DHC during its ongoing efforts to educate and promote health equity in our great city. Watch our [Facebook](#) feed for examples of DHC's work in our community, and know that your generosity directly impacts the lives of those in need. Our sister organization, [Muslim Americans for Compassion](#), will be getting involved as well!

DHC Joins School Physical Teams

Throughout the month of July, DHC volunteers participated in several sports and school physical events for Jefferson County Public Schools. Covid-19 vaccinations were also available for children and families. Thank you to everyone who took part and helped make these a success. If you'd like to see DHC's full coverage, visit the links below.

School Supplies Delivered as Year Begins

Each year, Doctors for Healthy Communities collaborates with Jefferson

County Public Schools to make sure children have the proper supplies to facilitate learning. As the school year nears, 2021 is no different. We worked closely with faculty and staff to help fulfill the needs of each student body. Deliveries were made to [Camp Taylor & Audubon Elementary Schools](#) and [Portland Elementary School](#) with more expected in the weeks ahead. Thank you to everyone who donated!
